

SOS CHILDREN'S VILLAGES VIETNAM

Water Treatment Plant
PAULA

HOW THE PAULA 8000 SYSTEM WORK?

The system works incredibly well at both villages. Children and SOS villages greatly enjoy the system.

DO SOS MOTHER AND CHILDREN ENJOY THE SYSTEM?

❖ Ca Mau Village

- ✓ **The life of mothers, aunts and children becomes easier, thanks to the PAULA system.** Due to submerged area, the groundwater is not conducive for consuming without proper treatment. The PAULA 8000 water treatment system brings clean water to the village. Families and children use water from the system every day. We use water from the system to ensure the health for children

❖ Da Nang Village

- ✓ Mothers and children in the village are happy to get water from the PAULA system, especially when cleaned water has been fed to 16 houses, community houses, and youth houses

YES, WE ENJOY THE SYSTEM SO MUCH!
